HANDS-ON

GCS ASSESSMENT

SAFE SURGERY SAVES LIVES

PHYSIOTHERAPY

SKIN ASSESSMENT & POSITIONING FOR STROKE PATIENTS

ACNN MEMBERSHIP

- 50 nurses signed up as ACNN members after a briefing on ACNN was given by Matron Yee
- To date: total ACNN members - 170
- More awareness/briefing is needed in the future in order to get more nurses to sign up as members.

FEEDBACK FROM PARTICIPANTS

- Very good education course and hands-on workshops, beneficial and relevant to nurses from both public and private centers.
- Good course for nurses to improve knowledge and skill

Suggestion for improvement:

- A bigger room for nurses (present room only for 80/pax)
- To improve time management
- Presenters and participants must be more interactive (2-way communication)
- Suggest to have the course yearly

ACKNOWLEDGEMENT

- On behalf of ACNN, I wish to express my sincere thanks to Prof. Yoko Kato for her unwavering support and her generous donation enable the event to be a success.
- My gratitude and appreciation to Dr. Azmi Alias and the nursing organizing committee for given me the opportunity to collaborate this wonderful and meaningful education course.
- My sincere thanks to all speakers for your contribution and support at the event, your insights and expertise in making the event a success.

- To all participants, thank you for your participation and support. Your support and enthusiasm added to the success of the event.
